Intentional Creativity® and Cosmic Smash Booking

Dates: Mondays, Sept. 8, 22nd & Oct. 6th, 20th
Time: 9:30 a.m. – 12:00 p.m.
Cost: Free

Intentional Creativity® is an approach to creating that yields access to who we are now and who we are becoming and what is possible for us and our unfolding future. Using our imagination, meditation, writing and painting, we weave inquiry, image and word with intention.

Everything within us, past, present and future, lives in story. When we create around our story, we gain clarity. When we create with intention, we activate both sides of the brain. When we activate our brain, we gain greater access to our own information, how to articulate it and how to move it from the “stuck” places. Intentional Creativity® can be used to heal and transform our thoughts. It can transform old stories into tools for empowerment and grants access to a new way of working with daily stress.

Cosmic Smash Booking is a mash-up of art journaling and Intentional Creativity® developed by Catt Geller. Using this method of creating, hidden stories start to come unraveled and revealed. The stories become tools for transformation, and it is then the potential for learning and healing emerges.

Instructor: Taunya Tae Taylor, Certified

New registrants need to take a one-time introduction class called “Introduction to Intentional Creativity.” This class will be offered once per month for newcomers.

Hand and Foot Card Game

2nd and 4th Friday of every month
1st and 3rd Thursdays of every month

Hand and Foot is a Canasta variant involving four to six decks rather than two and is played by teams of two players (usually two teams, but it also works with three or four teams). The number of decks used is typically one more than the number of players, though this can vary. Due to the larger pool of available cards, it is much easier to form canastas in Hand and Foot than in standard Canasta, which changes the strategy considerably. Some players feel this version is more enjoyable for beginners.

More energetic types of yoga are considered to be ‘yang’, while yin postures are meant to balance energetic practices with calm, deep stretches. Postures are normally held from 2 to 5 minutes. It is helpful for those who wish to increase flexibility, keep joints healthy and mobile, improve posture, balance energetic exercise, or release trauma and emotions that are stored in the body.

Restorative Yoga The practice of restorative yoga is passive (using props such as chairs, blocks, blankets, bolsters, sandbags and straps). Combining use of props and longer holds can help to bring a sense of calm and comfort, triggering the body’s healing mechanisms. Postures are normally held from 5 to 20 minutes. It is helpful for those who wish to meditate, heal, release stress, relax, create a sense of safety in the mind and body or reach a state of mindful rest.

Pickleball is a paddle sport played with a whiffle ball on a badminton-sized court and a tennis-style net. These unique rules favor players with less mobility and allow senior players to compete successfully with younger competitors.

The game is enjoyed by people of all ages and athletic abilities thanks to its ease of play and straightforward rules. Pickleball has exploded in popularity. Thousands of pickleball courts have been built in recent years, especially in senior communities.
